

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

P R E F A C E .

The Parish of Alnham is situated in the north-west of Northumberland, and the village, which is small and straggling, lies within eight miles of the Scottish border.

The census returns for the Parish give the following particulars of its population :—

1801 - 233	1831 - 278	1861 - 295	1891 - 105
1811 - 211	1841 - 256	1871 - 252	1901 - 177
1821 - 269	1851 - 291	1881 - 226	

In mediæval times Alnham was a place of some importance, and possessed a tower of which the foundations can still be traced. Later, the village suffered considerably from the ravages of the Scots, and was burnt down by these neighbours on October 10th, 1532. The present Vicarage contains a tower mentioned in the Surveys of 1416 and 1542. The Church, dedicated to St. Michael, is of the transitional period ; and has some interesting features.

All the early Parish Registers have disappeared, the earliest in existence being of comparatively recent date. A terrier, dated 1663, is amongst the Church books.

In the present transcript, where an entry is illegible, or where there is no entry at all, the Editor has indicated it by [*blank*], and where any doubt as to the name existed, by a query.

The letters *lic.* in the Marriage Registers indicate that the Marriage was solemnized by License: where this does not occur it was in all cases performed after the Publication of Banns.

It is well to remind readers that previous to 1752 the year began on the 25th of March, instead of, as now, on the 1st of January.
